EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph Scafetta, Jr. (26,803) on 3/4/04 and 3/8/04.

The application has been amended as follows:

3. (Amended) An apparatus as claimed in claim 1, further comprising display means for displaying, in the event of the jam occurred without said first [paper] medium sensing means sensing a recording medium, a message informing an operator of said apparatus of the recording medium left in the fixing device.

7. (Amended) An apparatus as claimed in claim 5, further comprising a display configured to display, in the event of the jam occurred without said first [paper] medium sensor sensing a recording medium, a message informing an operator of said apparatus of the recording medium left in the fixing device.

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 1-8 is the inclusion of when a first medium sensing means or sensor sensing a recording medium is jammed, the image forming apparatus is prevented from resuming an operation unless a set condition of the fixing device is interrupted. This is found in all of claims 1-8, but not disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kono, Kusumoto et al., Makiura, and Izeki (Japan, 836) disclose art in detecting paper jams in the image forming apparatus. Nakatomi et al. discloses a housing with an image fixing unit that is removable.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan S. Lee whose telephone number is 571-272-2137. The examiner can normally be reached on Mon. - Fri., 10:30-8:00, Second Monday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Art Grimley can be reached on 571-272-2136. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
